

Legislative 2025-2026

Bulletin 4

Greetings to all! Thank you for hanging in there with me and making it to the finish line, I really do want to extend my appreciation for everyone's efforts this year. My goal was to make each of us realize that the legislative side of things is the driving force behind most of what we do. Without our national VFW and the men and women working tirelessly in Washington DC and Kansas City, we may not be able to move the mountains we move. It is of utmost importance to always keep our ear to the ground to what efforts are being heard in the interest of Veterans. Believe it or not, there are times and individuals who do not see the value of a veteran as we see them, we must always stay in their line of sight and continue the conversation.

This year in Washington D.C. the Legislative team hit the hill and made all Washington lawmakers aware of our needs and concerns; let us hope they listened and put forth the effort to protect and agree with all good things regarding our Veterans and military and, of course, their families.

I hope each and every person sitting in your Auxiliary room this evening is signed up for **Action Corps** AND responding when the call goes out, it's very important! Please also take a look at the newsletter located on the national website as well, their editors are keeping it current in all things VFW and they always post some great information and keep their articles interesting, I am always impressed with that website!

Speaking of website, you should all have printed or filled out the year-end report for **Legislative** by now as it is due on April 15. I have kept it very simple as I know we are all very busy and my goal is always to teach something new or spark some interest in this program. I will also attach my email and mailing address for those who need it and don't forget to cc your district presidents when you send. Please keep in mind that you are all winners and I look forward

to reading some great reports and to see all that your Auxiliary has accomplished this year!

I am keeping it short and sweet; I will see most of you in June for convention!

Loyally,

Elizabeth Herrera

Legislative

2026~2026
